

CONVENTIONAL ROD BENDER (CR)

Specification

| | |
|----------------------------|---|
| Model | U Type Hot/Cold Solid Round Bar Bending Machine |
| Capacity | Maximum 32 OD Rod having UTS 45/50 kg/cm ³ for Hot Rods only |
| Max Bending Tonnage | 20 Tons |
| Bending Operation | By Means of Bending Die Actuated by Hydraulic Cylinder with Suitable Tooling's with rotary actuators. |
| Speeds | Fast Forward -50 Mm/Sec Pressing -10 Mm/Sec Return -50 Mm/Sec |
| Electrical Motor | 10HP |
| Cycle Time | 10-15 Sec Max |
| Hydraulic Tank Capacity | 200 Ltrs |
| Machine Overall Dimensions | 1500 x 1400 x700 (Length x Height x Width) |
| Controls | Electrical Contactor Logic |
| Machine Paints | Apple Green |
